Biblical Apologetics & Philosophy is a required semester course for the 10th grade student that is designed to introduce students to the distinctively Christian worldview by giving them the basis for Christian thought and belief. The material is presented in discussion-based format in order to help every student voice, process and critically think through their personal questions and doubts as they relate to the nature of God, the Bible's authority, reliability and the overall narrative and how to answer the common challenges people pose in attempting to refute Christianity. This course not only has the goal of deepening a student's understanding of the Bible's importance intellectually, but to cause them to personally love God with all their heart, soul, mind, and strength.
