

MS & HS TKA Remote Learning Registration Form – Fall 2020

This program is intended for families wishing to have their child continue their studies with The King's Academy and learn under the instruction of TKA teachers while remaining at home.

Instruction will be delivered to the student remotely. Classroom lessons are pre-recorded on a one day delay and available for view through the student's personal TKA Moodle Learning Management System. Students will submit work electronically through Moodle and at times may be requested to drop off projects or other assignments to school, as directed by the teacher.

Students will be required to take all tests and semester exams on campus in a designated testing center under proctor supervision weekly. Test administration will take place after school hours with only TKA Remote Learning students. The testing center will be sanitized and students will be socially distanced. All students will be temperature screened and be required to wear masks at all times.

When on campus, all TKA Remote students must be in school uniform and be in alignment with all guidelines and student expectation outlined in the Parent Student Handbook.

Full Tuition is required to participate in TKA Remote Learning.

Students selecting this program must elect by July 31st, 2020 and are committing to stay online for the quarter and the entirety of any subsequent quarter a student begins. Submit form to Jennifer Watford, Registrar, jwatford@tka.net

Student's Name: _____ Grade: _____

Middle School & High School Only: Provide the title of each of your selected courses for the Fall
